

You can edit the sequence and output the project in comp "Website\_Present"

The screenshot shows the Adobe After Effects interface with the following details:

- Project Panel:** On the left, it lists various compositions, images, and folders. The composition "Website\_Present" is highlighted with a red box.
- Composition Panel:** The main workspace displays a title card with the text "YOUR TITLE" and "Your Tagline Here".
- Timeline Panel:** At the bottom, the timeline shows 13 layers labeled "Scene01" through "Scene12" and "Edit\_Theme". A red box highlights the first layer, "Scene01". Red arrows point from this box to the layer names in the timeline and the text "re-arrange swap scene as you want".
- Text and Annotations:** A large black box with red text "edit duration trim the layer scene as you want" is overlaid on the timeline area, with a red arrow pointing to the duration handles of the layers.

You can re-arrange and edit duration each scene with trim the layer scene~~xx~~ as you want

The screenshot displays the Adobe After Effects interface with the following key elements:

- Project Panel:** Shows the file structure with a selected item "Website\_Present".
- Composition Panel:** Displays the "Website\_Present" composition with a dark blue background featuring silhouettes of people. Overlaid on the center is a white rectangular box containing the text "YOUR TITLE" in large, bold, white letters, with "Your Tagline Here" in smaller letters below it.
- Effect Controls Panel:** Located on the right, it shows three effect controls:
  - Color\_Fill\_BG1:** Includes a color swatch and a "Reset" button.
  - Color\_Fill\_BG2:** Includes a color swatch and a "Reset" button.
  - Intensity\_Fill\_Color:** Includes a slider set to 230.00 and a "Reset" button.
- Timeline Panel:** At the bottom, it shows the timeline from 001 to 0180. The "Edit\_Theme" layer is highlighted with a red box in the layer list, and its corresponding effect controls are visible in the Effect Controls panel.

You can adjust the color theme(background) in effect controls of the layer “Edit\_Scene”  
Press “F3” for open effect controls panel

The screenshot displays the Adobe After Effects interface with the following details:

- Project Panel:** Shows a folder named "Scene01" which contains "S1\_Background" and "Scene01". Both items are highlighted with a red box.
- Composition Panel:** Shows a composition titled "Scene01" with a frame rate of 25.00 fps. It contains two text layers: "YOUR TITLE" and "Your Tagline Here".
- Timeline Panel:** Shows the timeline from frame 00091 to 0100. Layer 1 (Edit\_Scene) is selected and is currently at frame 101. Other layers include Tagline, Main\_Text, Line, and S1\_Background.
- Character Panel:** Shows font settings for the selected text layer, including "Galatia SIL", "Regular", "55 px", and "Metrics VA 489".

How to edit scene 01

You can edit scene01 in comp “Scene01” in folder Scene01

The screenshot shows a video editing software interface with the following panels:

- Project Panel:** Shows a tree view of projects and compositions. A specific composition named "Scene01" is selected.
- Composition Window:** Displays a white canvas with a central title card. The title card contains the text "YOUR TITLE" and "Your Tagline Here".
- Effect Controls Panel:** Located on the right side, it lists various effect controls for the selected layer:
  - fx Intensity\_Shadow (Slider: 20.00)
  - fx Width\_Line (Slider: 936.00)
  - fx Height\_Line (Slider: 199.00)
  - fx Size\_Stroke (Slider: 188.00)
  - fx Color\_Stroke (Color picker: Reset)
  - fx Size\_Area\_Sub\_Text (Slider: 227.00)
  - fx Adjust\_Line\_Node (Angle: 0 x +106.0°)A red box highlights the "fx Adjust\_Line\_Node" section.
- Timeline Panel:** At the bottom, it shows a timeline with frames from 0001 to 0100. Layer 1, labeled "Edit\_Scene", is highlighted with a red box in the timeline and has a blue selection handle.

Red text annotations are overlaid on the composition window:

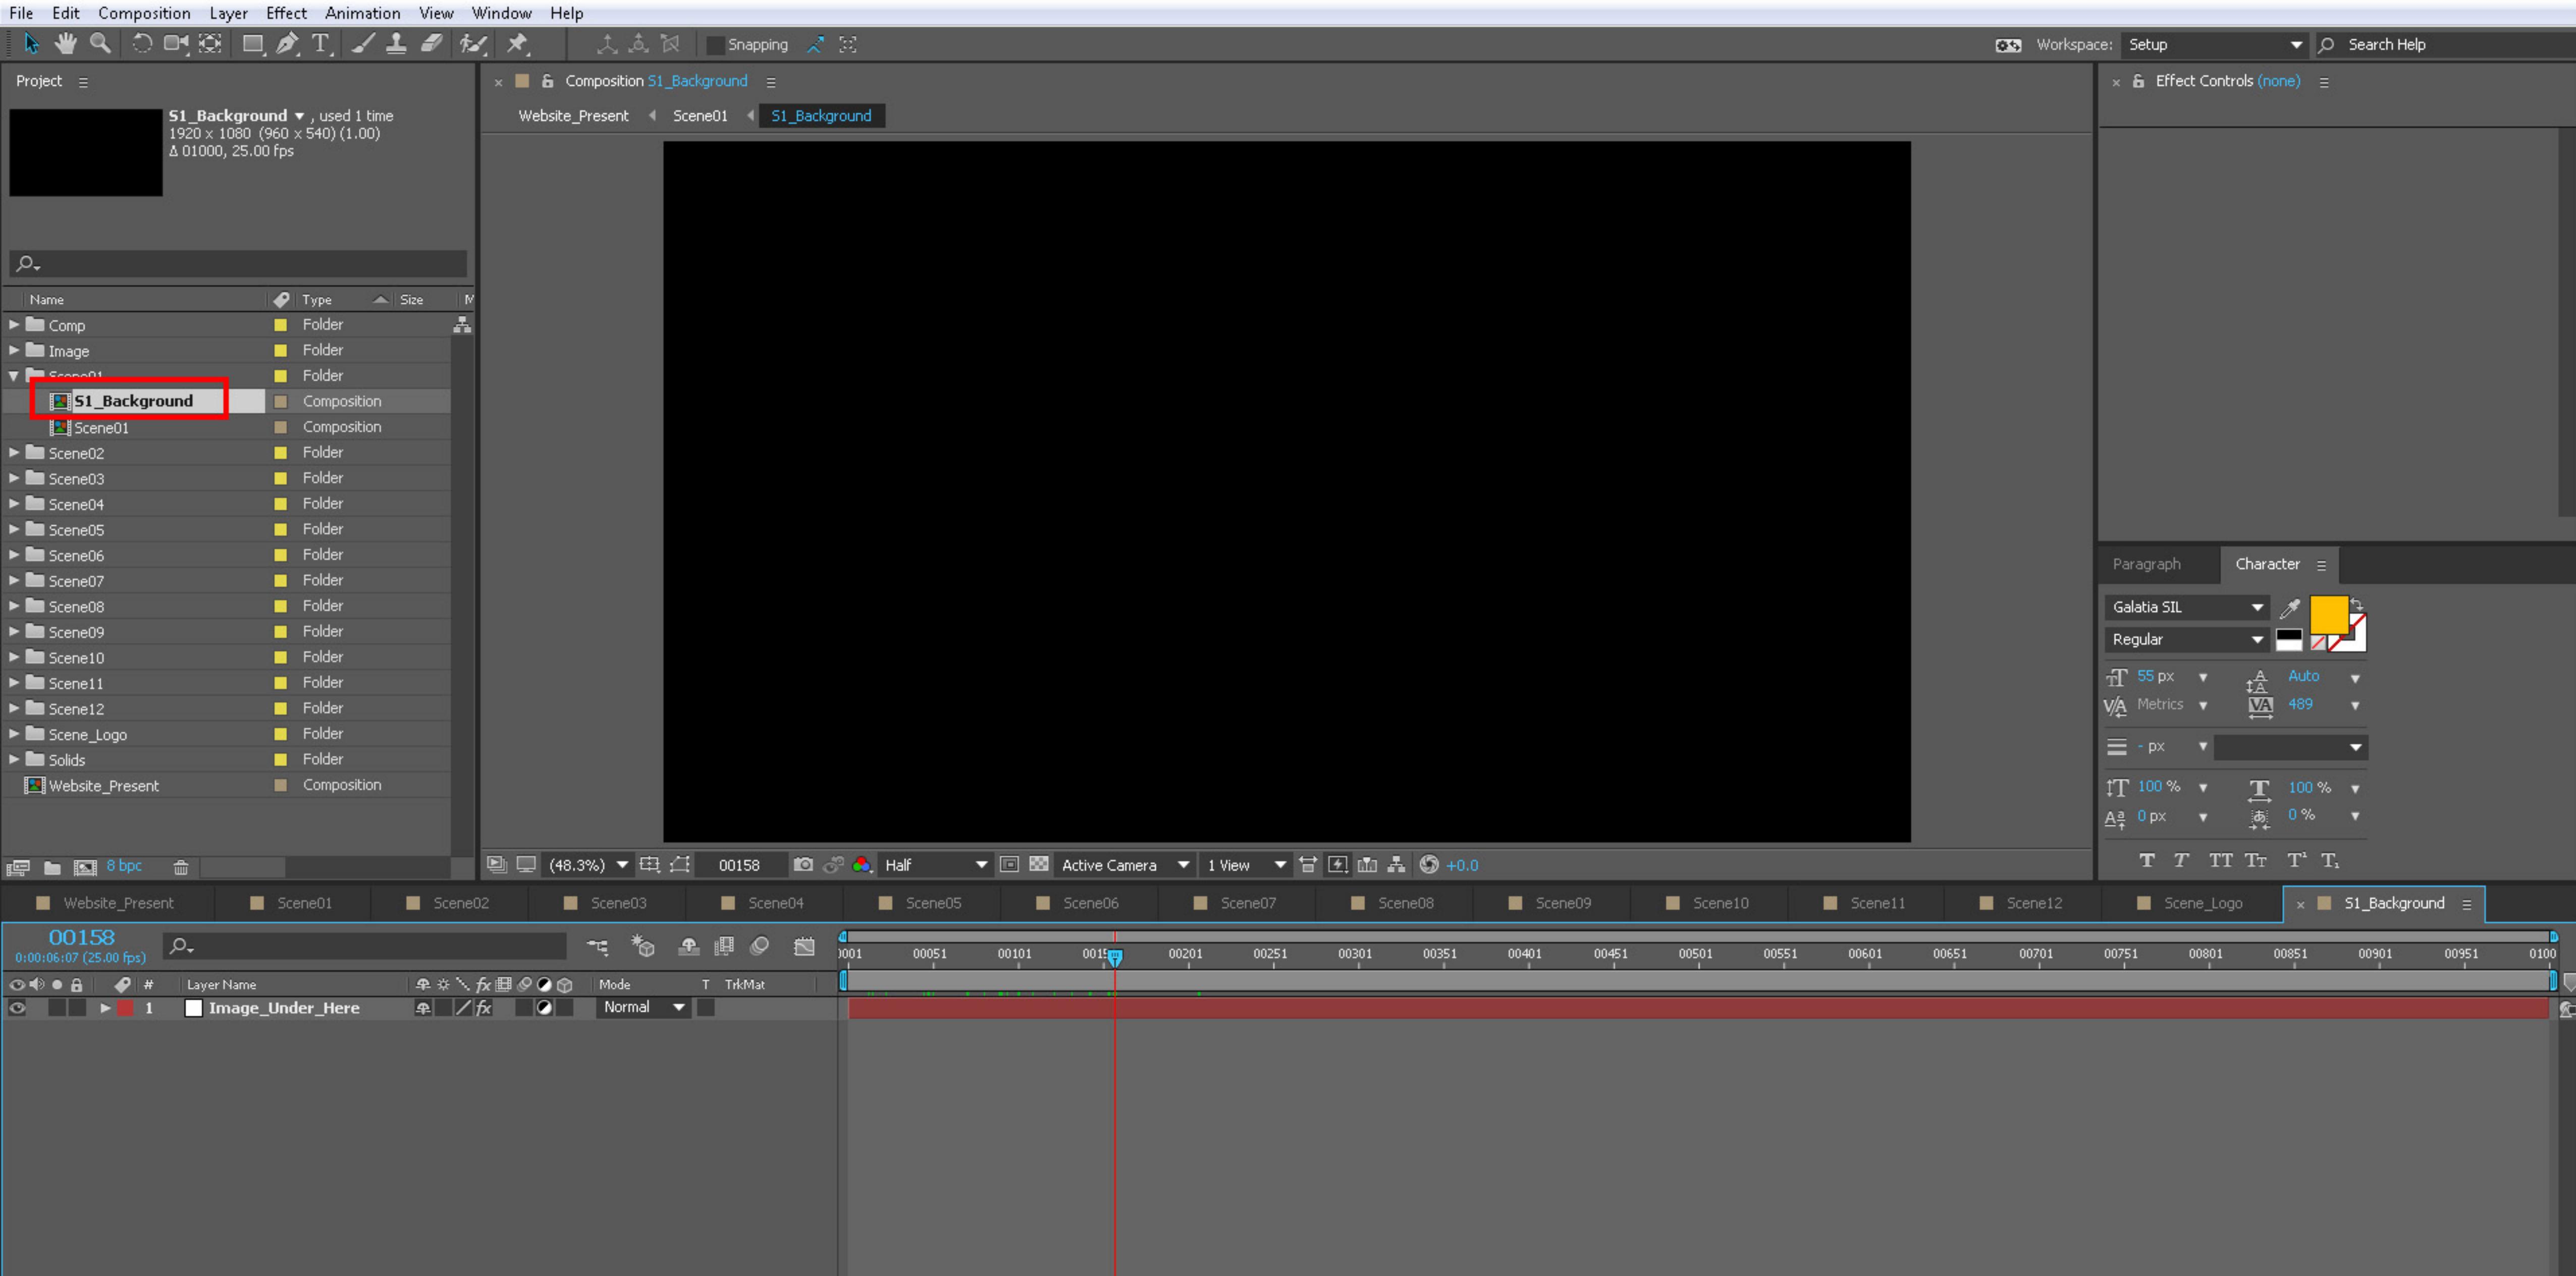

- Adjust the intensity of the shadow effects
- Adjust the line frame
- Adjust the space for sub text
- Adjust the start point of line frame

You can adjust elements of scene01 in effect controls of the layer "Edit\_Scene"  
Press "F3" for open effect controls panel

The screenshot displays the Adobe After Effects interface with the following key elements:

- Project Panel:** Shows a tree structure of projects and compositions, including "Scene01" which contains "S1\_Background".
- Composition Panel:** Shows a composition titled "Scene01" with a background layer and a text layer labeled "Tagline" containing the text "YOUR TITLE" and "Your Tagline Here".
- Character Panel:** Opened on the right, it allows for font, size, color, and alignment adjustments. A red box highlights the font dropdown set to "Galatia SIL" and the size dropdown set to "55 px".
- Effect Controls Panel:** Shows the "Drop Shadow" effect applied to the "Tagline" layer, with settings for color (black), opacity (20%), direction (0x+135.0°), distance (5.0), and softness (9.0).
- Timeline Panel:** Shows the timeline from frame 0001 to 0100, with layers 1 through 8 visible. Layer 1 is highlighted with a red box.

Double click on the text layer for edit the text

You can replace the background with drop your image/video in the comp “S1\_Background”

Screenshot of Adobe After Effects interface showing a composition named "Scene04" for a website presentation.

The Project panel on the left shows a folder structure with several compositions and folders. Three specific text layers, "Text01", "Text02", and "Text03", are highlighted with a red border in the "Scene04" folder.

The Composition panel in the center displays a 3D perspective view of a website design. A character is shown in a dynamic pose, and the text "WE CREATIVE TO LET YOU USE" is prominently displayed. A callout box labeled "MAIN TEXT 1" points to the main text area. A "PURCHASE NOW" button is also visible.

The Timeline panel at the bottom shows multiple layers over time. The layers "Text01", "Text02", and "Text03" are highlighted with a red border in the timeline, corresponding to the ones in the Project panel.

The Effect Controls panel on the right provides detailed settings for the selected text layer "Text01".

You can edit the text 1, 2, 3 in comp Text01, 02, 03 in each folder scene04,06,08,10

The screenshot shows the Adobe After Effects interface with the following details:

- Project Panel:** On the left, it lists various compositions, images, and folders under the 'Website\_Present' project.
- Composition Panel:** The main workspace displays a composition titled 'Text01'. It features a large white circle containing a line graph icon on the left. To its right, the text 'TEST EDIT:' is displayed in large, bold, white letters. Below it, the placeholder text 'Your Description test edit text here' is visible.
- Properties Panel:** On the right side, the 'Text01 • Mian\_Text' panel is open, showing Paragraph and Character settings for the selected text layer.
- Timeline Panel:** At the bottom, the timeline shows a sequence of frames from 00057 to 0100. Layer 3, labeled 'Mian\_Text', is currently selected and highlighted with a red border in the timeline.

In comp Text , You can edit the text with double on the text layer

Double on the text layer for edit the text

You can adjust the position each text with select the layer “Main\_Textxx” and drag in the screen

This image shows a screen recording of a video editing software interface, likely Adobe After Effects, demonstrating how to edit text layers. The interface is divided into several panels:

- Project Panel:** On the left, it shows a file tree with various scenes and compositions. The "Scene11" composition is currently selected.
- Composition Panel:** The main workspace displays a composition titled "Scene11" with an active camera. It features three text layers: "YOUR TEXT3" at the top, "YOUR TEXT2" in the middle, and "YOUR TEXT1" at the bottom, all containing placeholder text "Lorem ipsum dolor sit amet".
- Effect Controls Panel:** On the right, the "Effect Controls" panel is open for the "Edit\_Text1" layer. It lists various effect controls:
  - Use\_Text1:** Contains a checkbox labeled "Checkbox" which is checked.
  - Color\_Point\_Page:** Contains a color swatch labeled "Color".
  - Color\_Line:** Contains a color swatch labeled "Color".
  - Color\_Point\_Text:** Contains a color swatch labeled "Color".
  - Adjust\_Center\_Line:** Contains a slider set to -96.00.
  - Intensity\_Shadow:** Contains a slider set to 20.00.
- Text Properties Panel:** Below the Effect Controls, there are two tabs: "Paragraph" and "Character". The "Character" tab is selected, showing settings for font (Arial), style (Regular), size (28 px), metrics (VA 10), and other options.
- Timeline Panel:** At the bottom, the timeline shows multiple layers over time. The layers are color-coded and labeled: "Edit\_Text3" (purple), "Edit\_Text2" (green), "Edit\_Text1" (blue), "Description1" (light blue), "Mian\_Text1" (brown), "[S11\_Page1]" (tan), "[S11\_Page2]" (tan), "[S11\_Page3]" (tan), and "[S11\_Background]" (green). The "Edit\_Textxx" layers are highlighted with red boxes.

The status bar at the bottom indicates the current frame is 00060, and the overall duration is 0:00:02.09 (25.00 fps).

You can adjust the elements of each text in effect controls of the layer "Edit\_Textxx"

How to edit scene logo

You can adjust end scene in comp "Scene\_Logo"

You can replace the background with drop your image/video in the comp “SL\_Background”

You can replace your logo in comp "Your\_Logo"

The screenshot shows the Adobe After Effects interface with the following components:

- Project Panel:** On the left, it lists various compositions, images, and folders. A specific composition named "Your\_Logo" is highlighted.
- Composition Panel:** The main workspace displays a logo with the text "YOUR LOGO" and a placeholder "your tag line here".
- Effect Controls Panel:** On the right, it shows various effect parameters for the selected layer. A red box highlights the "Search Bar" under the "Edit\_Scene" effect, which has a value of 20.00.
- Timeline Panel:** At the bottom, the timeline shows multiple layers over time. Layer 1, "Edit\_Scene", is highlighted with a red box in the timeline header.

You can adjust the search bar in effect controls of the layer “Edit\_Scene”

The screenshot displays the Adobe After Effects interface with the following details:

- Project Panel:** Shows a folder named "Scene\_Logo" containing "Your\_Logo" (1920x1080, 960x540, 1.00), "SL\_Background", and "Website\_Present".
- Composition Panel:** The active composition is "Scene\_Logo". It features a large "YOUR LOGO" text at the top and a "your tagline here" placeholder below it. The "your tagline here" layer has a bounding box selection.
- Effect Controls Panel:** Shows effects applied to the "your tagline here" layer, including "speed" (Slider: 40.00), "start" (Slider: 0.35), and "Drop Shadow" (Shadow Color: black, Opacity: 20%, Direction: 0x+135.0°, Distance: 5.0, Softness: 9.0, Shadow Only).
- Text Properties Panel:** Displays text settings for "your tagline here": Arial, Regular, 70 px, Metrics: VA 37, Line Spacing: -px, Font Size: 100 %, and Alignment: 0 px.
- Timeline Panel:** The timeline shows a sequence of layers from 001 to 0100. Layer 2, "Your\_Tagline", is highlighted with a red border and is currently selected.

Double click on the text layer for edit the text.

This image shows a screen capture of a video editing software interface, likely Adobe After Effects, demonstrating how to create a logo template. The interface is divided into several panels:

- Project Panel:** On the left, it shows a folder structure with items like "Your\_Logo", "Scene Logo", "SL\_Background", etc.
- Composition Panel:** The main workspace displays a composition titled "Scene Logo" with a frame labeled "YOUR LOGO". Below it is a placeholder text box with "your tag line here" and a magnifying glass icon.
- Effect Controls Panel:** On the right, it shows the "Drop Shadow" effect settings for the "Your\_Logo" layer, including options for shadow color (black), opacity (20%), direction (0x+135.0°), distance (5.0), and softness (9.0).
- Character Panel:** Shows font settings for "Arial" in "Regular" style at 28 px, with metrics set to VA 10.
- Timeline Panel:** At the bottom, the timeline shows a sequence of frames from 00132 to 0100. A red box highlights the "Your\_Logo" layer, which is currently selected. The layer has a yellow fill and is positioned above other layers like "Edit\_Scene" and "ICON".

You can adjust the position of your logo with select the layer “Your\_Logo” and drag the logo in screen.
